Welcome

This is a workshop on open data.

If you like the workshop and want to keep it forever, make it yours. For that...

1. Fork [the github repo](#) this Quarto book is based on
2. Go to settings of your new repo and go to the “pages” section. Then set the “Branch” option to **gh-pages** (leave the dropdown to the right of this at **/root**)
3. Back on the main repo site, click on “About” (top right). In the URL of the website, change “j-5chneider” to your username “[your github username].github.io/PTOS-open-data/” (you might need to activate GitHub Pages for that, by [creating a GitHub Pages repo](#))
4. open your new webpage by clicking on the link in the “About” section

1 Introduction

This is a book created from markdown and executable code.

See Knuth (1984) for additional discussion of literate programming.
